Account Name: Bampton Community Archive

Account No: 51427318 Sort Code: 40 - 47- 07

TERMS & CONDITIONS

Responsibility for all transactions lie between the vendor and buyer. Bampton Library Support (BLS) accept no responsibility for any damage or loss incurred or matters arising as part of this event.

Please **DO NOT** offer food or drink for sale. Refreshments will be available from various locations on the day.

Keep your float/change and any items you do not wish to sell out of sight and secure. We recommend your stall is manned at all times.

Be prepared for some buyers to turn up earlier than the 10.00am start.

Make sure everyone helping you knows the prices for valued items and if you are prepared to bargain.

A village map with all participating houses marked will be printed and available to buyers for £1.00. Maps can be purchased from the Garage Sale HQ (Blue & White Gazebo) in the Market Square from 9.00 am on the day.

LATE ENTRIES will be accepted up until Friday 4th June but will not be included on the map. A list of late entries will be available on the day from Garage Sale HQ.

TRADING STANDARDS ADVICE

There are things you can do which will help avoid problems and which are recommended as 'good practice' during private sales.

These are as follows:

Electrical goods

We advise consumers not to buy items such as electric fires, electric blankets and irons at garage sales; so unless the item has a reputable recent source, we would caution strongly against its sale.

Food

Garage sales are not the place to try to get rid of those unwanted tins and packets lurking in the back of your food cupboards. It is not a good idea to sell items past their best before date, even though this is not of itself an offence – food must be unfit for human consumption before Environmental Health Officers will penalise you. Please act responsibly and exercise caution.

Clothes

Think twice before selling nightwear. It might well not meet flammability requirements that apply to nightwear sold by traders. Children's coats with hood-cords can also pose a hazard, so beware of selling these if their source and safety is uncertain.

Toys

Check toys to make sure there are no sharp points or small parts that can be pulled off. Put the toy in a skip rather than a sale if it is in bad shape or very old. If you still have the packaging, sell the toy in it.

Cosmetic products

Some ingredients are regulated and, if seals are not intact, the items can become contaminated.

Other danger areas

Caution should be exercised in the sale of the types of goods listed below. All of them have their own safety standards when sold by traders and you should have them checked carefully before you even think about selling them:

Prams, pushchairs, car seats, safety helmets. Paraffin heaters Oil heaters.

COVID RESRICTIONS If this event can take place all current government restrictions would apply.

BOOKING DEADLINE - SATURDAY 15th May 2021
